

## The Channel Group LLC and its Affiliate, Biomed Transition Partners, Welcomes Anthony A. Lombardo, Who Has Joined Our Firm as a Partner

The Channel Group, LLC is pleased to announce that Anthony A. Lombardo has joined our team as Partner. Mr. Lombardo brings a significant record of corporate executive management experience and transactional success to The Channel Group team.

Mr. Lombardo has extensive experience of leadership of both large global organizations and emerging growth companies in the medical marketplace. He has successfully built profitable growth businesses at all levels with particular expertise in imaging and medical technology.

Mr. Lombardo most recently served as the Chief Operating Officer at Bracco Diagnostics, Inc. where he led a broad based imaging agent product business as well as several specialty businesses in gastroenterology, contract manufacturing and healthcare decontamination. Anthony joined Bracco Diagnostics following its acquisition of EZ EM, Inc., where he served as President and Chief Executive Officer.

Prior to EZ EM, Mr. Lombardo served as President of ALI Imaging Systems a division of ALI Technologies, a company that provided information and imaging solutions for the hospital marketplace. At General Electric Medical Systems, Lombardo was the General Manager of Integrated imaging Solutions. He served as the President of the Medical Systems Division at Loral/Lockheed Martin Corporation and as Vice President General Manager of the Medical Systems Division at Sony Corporation. At North American Philips Corporation Lombardo was a director of the PACs group where he built the electronic imaging management business.

Mr. Lombardo has been an active member of the American College of Radiology, where he was a founding member of the ACRIN Fund established to support peer review research in advanced applications of CT including Colonography, Coronary Imaging, Breast and Lung Screening. He has received a number of recognition awards for his many contributions in the imaging sector.

Mr Lombardo received his Bachelor of Science degree at St. Francis College and his Masters of Science in Physiology at Duquesne University.
